LET US SUPPORT YOUR LED REQUIREMENTS

Infinite Design Possibilities

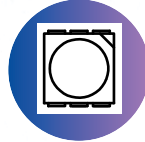

GET OUR PRODUCTS

THROUGH-HOLE LEDs

Options ranging from standard round 3mm/5mm, to more unique shapes such as square, rectangular, and even triangular. A multitude of colors, viewing angles, and intensities ensures we have a right fit for your project.

SMD LEDs

Performance driven packages to elevate your design. Choose from a range of high temperature, ultra-low current, high intensity options in a full spectrum of standard and special colors. Check out some of our more unique packages such as the PixoLED, World's Smallest SMD LED, and Light Therapy series.

DISPLAY LEDs

Our display type products include 7-Segment, Alphanumeric (14-Segment), Bargraph, Dot Matrix, and Light Bar. Multiple sized options are available in both through-hole and SMD form factor.

VALUE ADDED LEDs

Please check with us for any LED requirements not found on our website/catalog. As a leading manufacturer of optoelectronics, we have the capabilities to create any semi-custom or fully-custom solutions.
